Tomorrow is a big day.
I'm getting a new room!

Our builder, Michael from
TriVistaUSA, is coming over to
talk about making more rooms
in our house.

The architect is designing our
house and making blue prints.

I want them to build me a castle!

BUILDER

A builder oversees, coordinates and works with a team of people that together build or remodel the house that the architect designed.

ARCHITECT

Architects use math, imagination and drawing to design homes, office buildings, schools, hospitals, sports arenas, shopping malls and other buildings so that people can use and enjoy them safely.

Can you find all the parts of a castle?

The workers finish building our house. The landscapers plant new trees to make our yard look pretty!

Help the princess find her way through the garden to the castle's drawbridge.

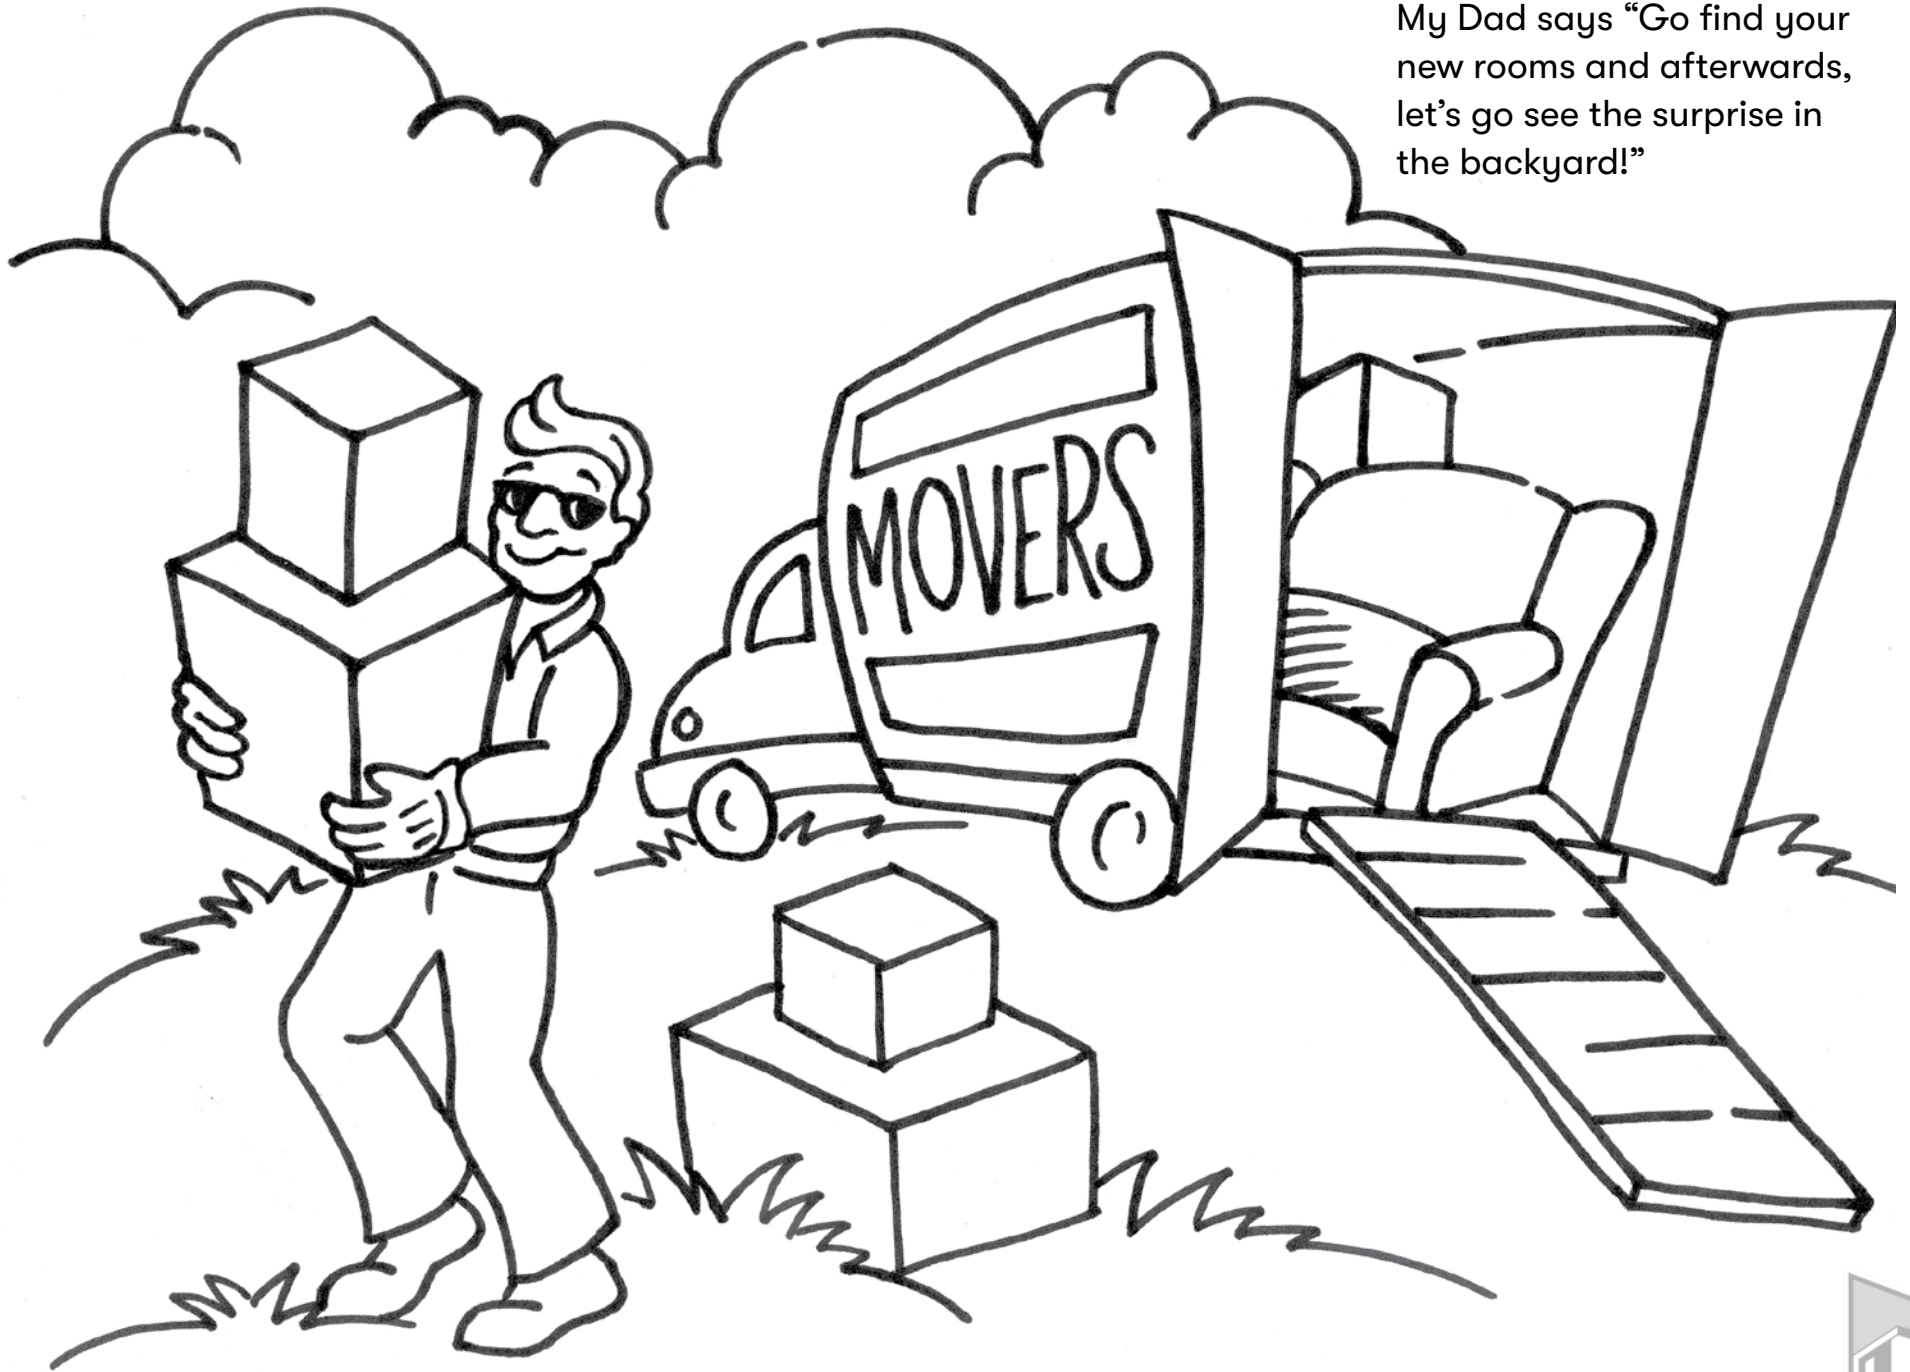

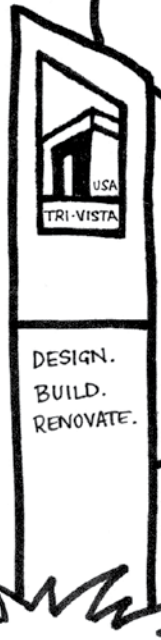

All finished! Today is moving day when we finally get to be in our new home!

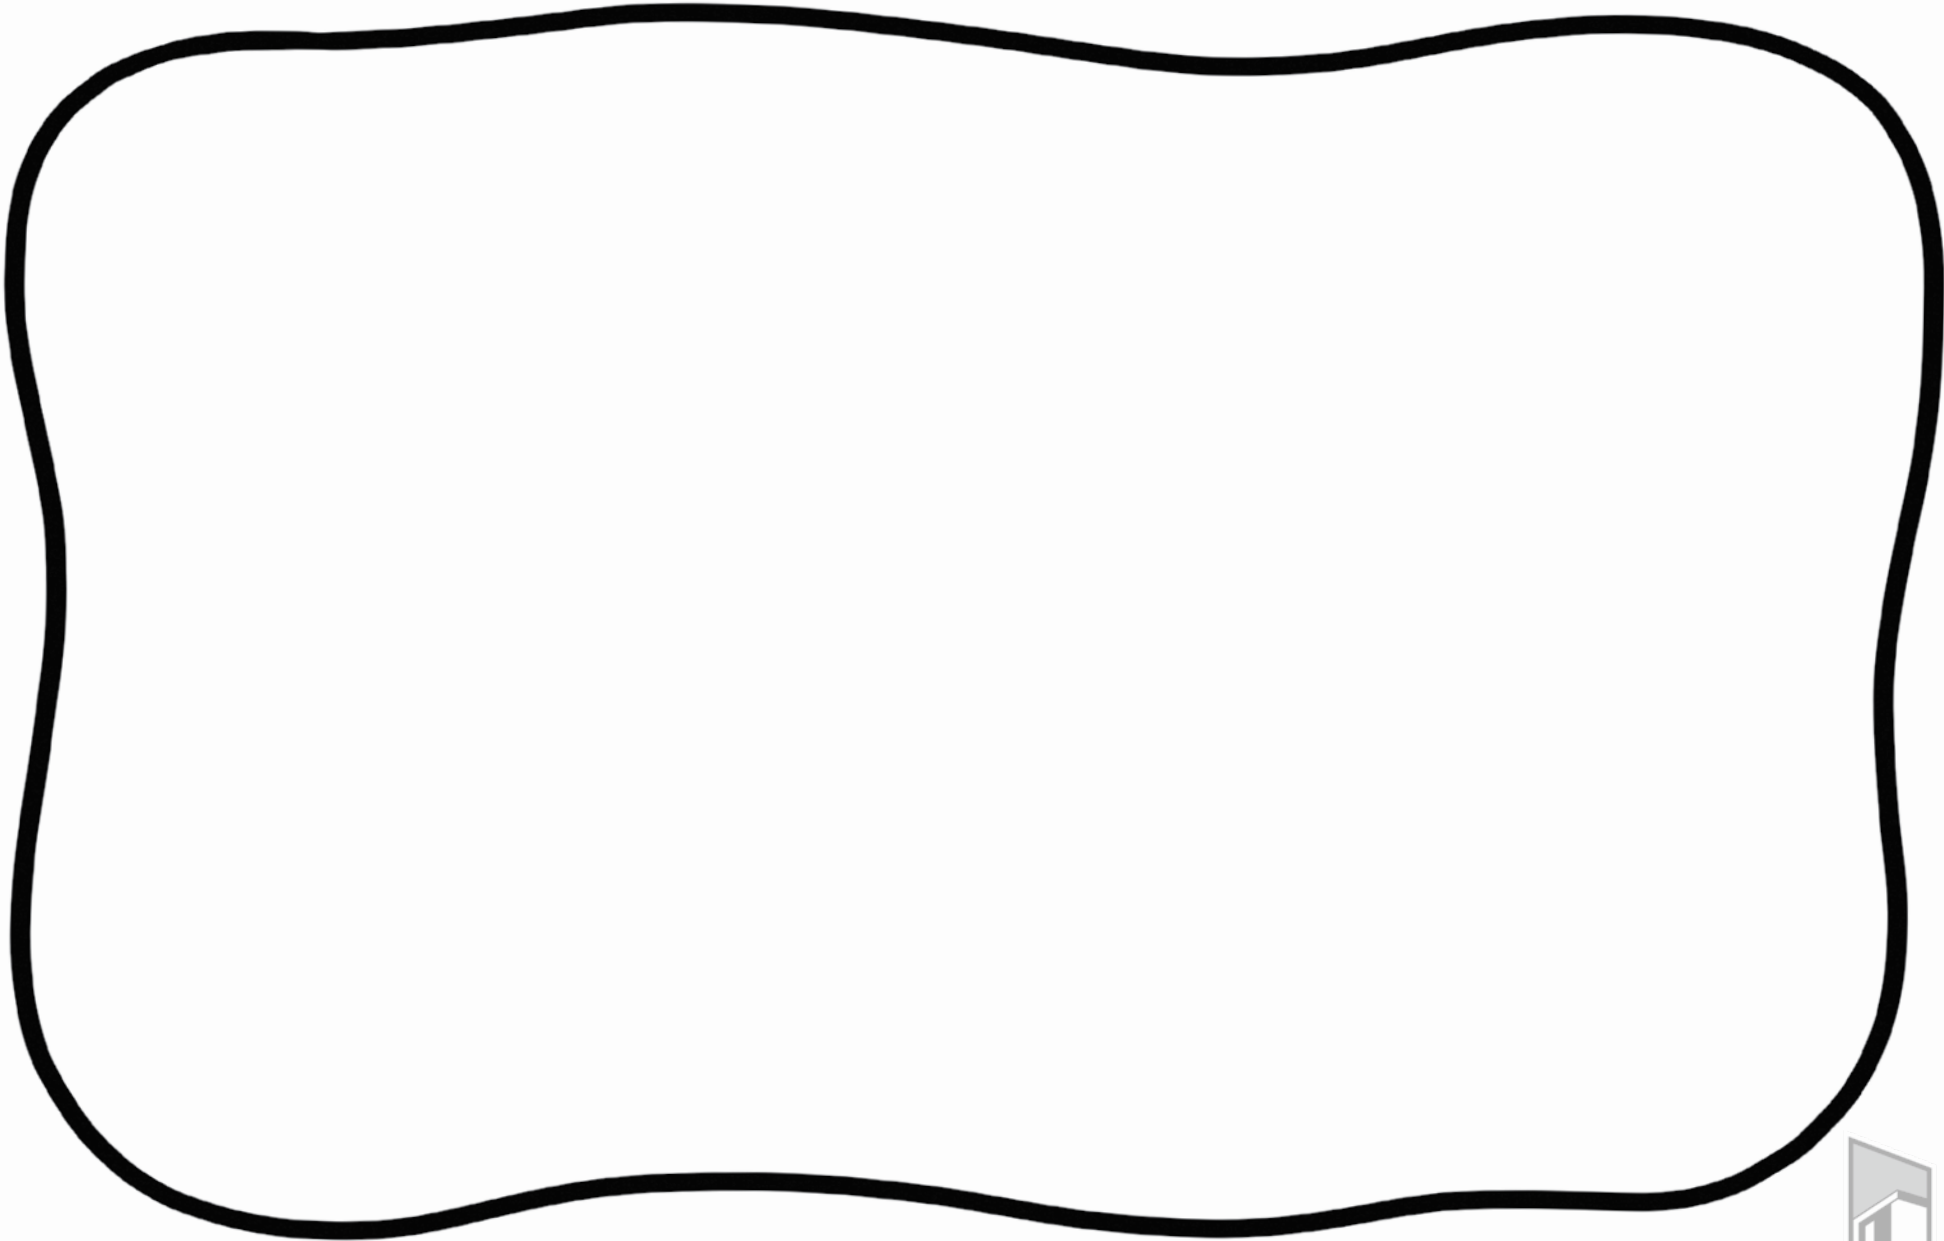

My Dad says "Go find your new rooms and afterwards, let's go see the surprise in the backyard!"

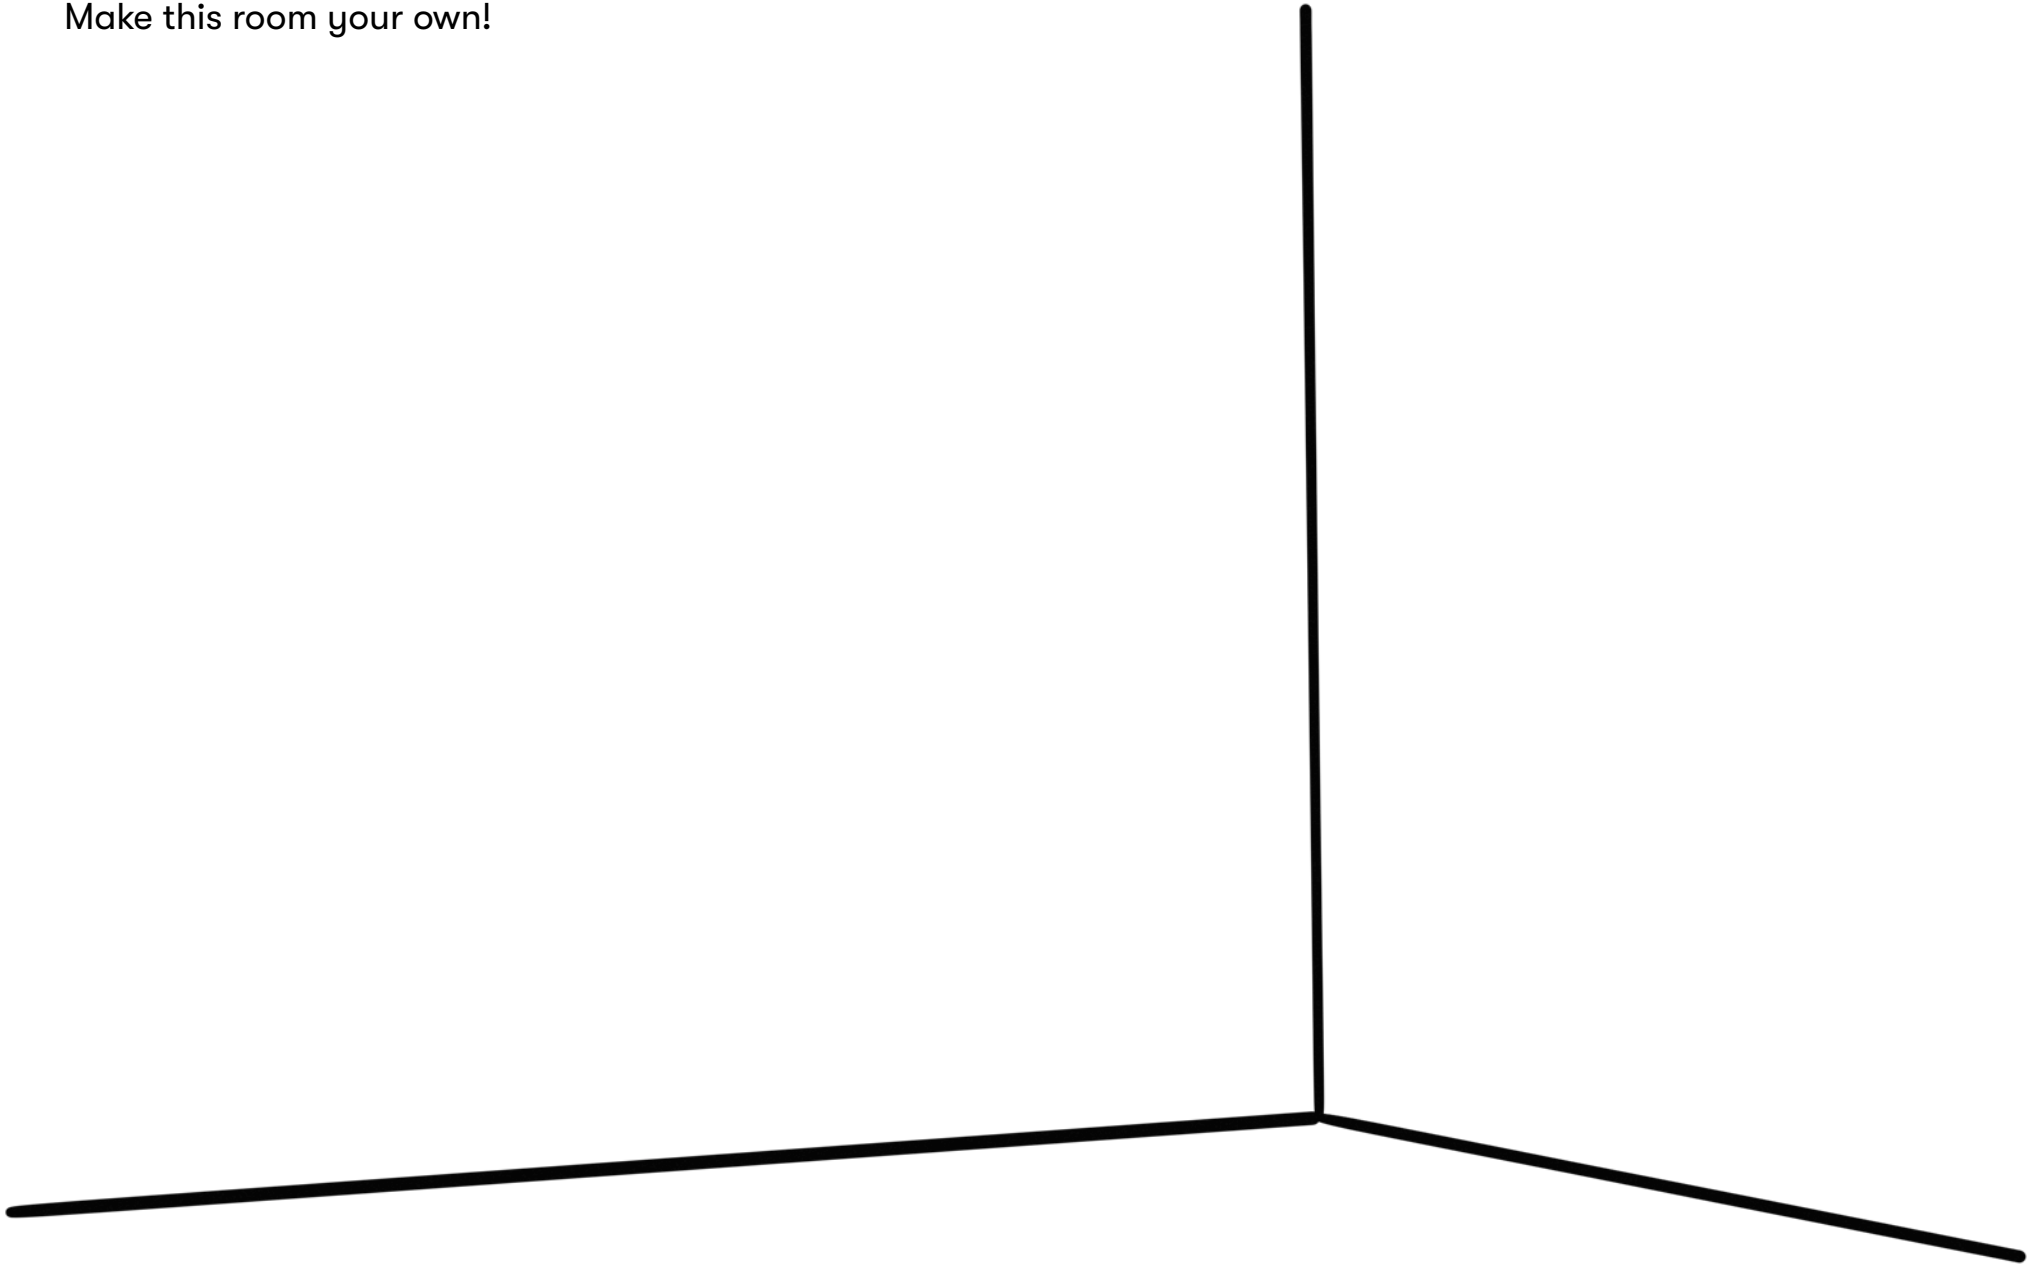

And when I look in the backyard, I see...
a castle of my very own!

Draw your own castle here!

Make this room your own!
